

Code Red Emergency Alert

Adams County/Commerce City Residents can subscribe to a system called 'Code Red' to inform residents in case of emergency. The system allows emergency messages to you via phone to your home phone, cell phone and through text or email, based on your preferences. Examples of emergencies when CodeRED would be used include severe weather, public health emergencies, criminal activity, evacuation notices, fires, floods and missing person cases.

What does Red Flag Warning or Watch Mean?

Red Flag warnings are issued by the National Weather Service to inform area firefighting and land use management agencies that conditions are ideal for wild-land fire ignition and propagation. A Red Flag Warning is the highest alert. During these times extreme caution is urged by all residents, because a simple spark can cause a major wildfire. A Fire Weather Watch is one level below a warning, but fire danger is still high.

Red Flag Warning

The NWS issues a Red Flag Warning, in conjunction with land management agencies, to alert people to an ongoing or expected **critical fire weather** pattern.

Critical fire weather conditions are either **occurring now, or will shortly**. Be extremely careful with open flames.

Take action.

Fire Weather Watch

A Fire Weather Watch alerts land managers and the public that upcoming weather conditions could result in extensive wildland fire occurrence or extreme fire behavior.

A watch means critical fire weather **conditions are possible** but not imminent or occurring.

Be prepared.
